Asim Mir

Frontend Developer (React.js/ Next.js/ JavaScript/TypeScript)

Frontend Developer with hands on experience building **responsive,** production ready web applications using **React.js, Next.js, modern JavaScript and TypeScript.** Strong focus on **clean UI, logic, reusable components, state management, and seamless API integration.** Experienced in developing **React SPAs, custom admin panels using Vanilla JavaScript** and **and AI-integrated frontend workflows.**

Projects

AI Interview Assistant – Frontend (React + Tailwind CSS)

Tech: React.js, Redux, Tailwind , motion/react, react-icons, React Router, Firebase OAuth

Developed a **highly interactive**, **responsive**, and **user friendly frontend** for an **AI-powered interview preparation platform**. Focused on **seamless user experience, state management**, **Redux,** and **integration with backend AI services.**

Responsive UI: Fully responsive, mobile-first design using **Tailwind CSS.**

Authentication & Profile Management: Google OAuth integration **via Firebase for login/logout flows; JWT based session handling.**

Resume Upload Interface: Intuitive **drag-and-drop PDF upload** with **progress feedback and AI resume analysis trigger.**

Dynamic Interview Flow: Multi-step interview interface including:

- **Step 1:** Role & experience selection + resume upload
- **Step 2:** AI generated interview questions with timer and speech input
- **Step 3:** Detailed report display with graphs and metrics

Voice Answer Support: **Microphone integration** for **candidates to speak answers**; real time **speech to text conversion** for **AI evaluation**

Animated Components: **Smooth transitions**, **hover effects**, and **animated steps** using motion/react.

Performance Dashboard: **Graphical representation** of **scores**, **confidence**, **correctness**, and **communication** using **Recharts** and **CircularProgressbar.**

Interview History: Interactive history page with cards showing past interview scores and statuses.

Credit & Payment Integration (Frontend): Stripe checkout integration for **purchasing credits**, with **seamless UI flow**.

Global State Management: Redux store for user data, **interview session, and credits tracking.**

Expertise

- **Languages: JavaScript (ES6+),TypeScrpt, HTML5, CSS3**
- **Frontend**: Next.js, React.js, React Hooks, Context API, SPA Architecture
- **UI & Styling**: Bootstrap,Tailwind CSS Responsive Design
- **Admin UI:** Vanilla JavaScript (Custom Admin Panel)
- **API Integration:** REST APIs, Axios / Fetch
- **State Management:** React Context API
- **Tools:** Git, GitHub
- **Other:** Component Reusability, Clean UI Logic, Performance Optimization

Education

2023 - 2025

ICS

Relevant Skills: JavaScript, TypeScript, React.js, Next.js HTML, CSS, Bootstrap

Note: Live demo hosted on free plan initial load may take a few seconds.

Projects

Ecommerce Frontend Application (React SPA)

Tech: React.js, JavaScript, Context API, REST APIs

Developed a **fully responsive ecommerce** frontend using **React.js (SPA architecture)**
Built **reusable components** for **product listing**, **product details**, **cart**, and **checkout**
Implemented **global state management** using **React Context API**
Integrated **REST APIs** for **authentication**, **products**, **orders**, and **user profiles**
Built **User friendly UI** for **complete ecommerce flow (browse → cart → checkout)**
Optimized **frontend performance** and **handled loading/error states**
Implemented **role based UI** rendering for **users**, **sellers**, and **admin**

Custom Admin Panel (Frontend – Vanilla JavaScript)

Tech: Vanilla JavaScript, HTML, CSS, Tabulator.js

Built a complete **admin panel** frontend without **frameworks**
Implemented **dynamic tables** using **Tabulator.js** with **search**, **filters**, and **exports**
Created **interactive dashboards** for **products**, **orders**, **users**, and **comments**
Implemented **form validation**, **image previews**, and **dynamic UI updates**
Focused on **clean logic**, **maintainable code**, and **performance**

AI Meeting Action Items Tracker (Frontend)

Tech: React.js, Axios, REST APIs

Built **frontend interface** for **uploading** and **managing meeting transcripts**
Integrated **AI-generated task responses** into **dynamic UI components**
Designed linked **transcript-to-task** views with **real-time updates**
Implemented **system health status indicators** (Server, Database, AI API)
Managed **async API calls** with **proper loading** and **error states**

News Blog CMS – Frontend

Tech: EJS, HTML, CSS, Bootstrap, JavaScript

Developed **frontend views** for **News Blog CMS** using **server side rendered templates**
Implemented **pagination**, **search**, and **SEO-friendly UI structure**
Built **responsive layouts** and **user friendly content presentation**
